

CAT AP1000D ASPHALT WHEEL PAVER

FEATURES & BENEFITS

Cat C7 Engine with ACERT™ Technology

ACERT Technology incorporates a series of innovations working at the point of combustion to optimize engine performance while meeting U.S. EPA Tier 3 engine emission regulations.

Dual Operator Stations

The dual operator stations provide complete control and good visibility from either side of the operating platform.

Operator Consoles

The operator consoles are designed for productivity and accessibility. All gauges and displays are grouped for convenient and simple operation.

SPECIFICATIONS

Engine

Gross Power	224 hp
Engine Model	Caterpillar C7
Flywheel Power	223 hp
Net Power (EEC 80/1269)	223 hp
Bore	4.33 in
Stroke	5 in.
Displacement	441.7 in ³

Operating Specifications

Paving Width	10 ft
Maximum Speed	300 ft/min
Maximum Capacity	215 ft ³
Paving Width Minimum	8 ft

Weights

Operating Weight	39,320 lbs
Tractor Weight	32,470 lbs

Dimensions

Wheelbase	8.3 ft
Length on Ground	23.75 ft

Fuel Tank

Fuel Tank Capacity	118 gal
